

Migration Readiness Assessment

Discover every migration risk before your project starts.

Shane McCaw Consulting

Lead Microsoft 365 Architect

shanemccaw.com/micro-offers/migration-readiness-assessment

June 23, 2026

OVERVIEW

A rapid, expert-led assessment of your readiness for an M365, Exchange, SharePoint, or cross-tenant migration.

WHAT'S INCLUDED

Configuration & Implementation

- Migration risk report

Strategy & Roadmap

- Remediation roadmap
- Go/no-go recommendation
- Phased migration plan
- Migration planning

Assessment & Discovery

- Risk analysis

Documentation & Reporting

- Executive summary

ENGAGEMENT PHASES

Discovery & Source System Intake

Identify current content systems, migration goals, and constraints

- Conduct migration discovery workshop
- Identify all source systems (SharePoint, file shares, Google, Box, Dropbox)
- Document business units, content owners, and migration priorities
- Review compliance, retention, and security requirements
- Capture known issues, blockers, and historical migration attempts
- Migration intake summary
- Source system inventory
- Discovery package for customer review

Source System Analysis

Analyze structure, volume, and complexity of content in each source system

- Export folder and file inventory
- Analyze content volume and file types
- Identify ROT content (redundant, outdated, trivial)
- Identify large files, unsupported file types, and blocked extensions
- Review permissions and sharing models
- Identify external sharing and guest access risks
- Source system analysis report
- ROT analysis summary
- Source system findings summary

Information Architecture & Mapping

Map source content to the target SharePoint and Teams structure

- Review existing SharePoint and Teams architecture
- Define target site structure and content destinations
- Map source folders to target sites, libraries, and channels
- Identify content requiring restructuring or reclassification
- Validate mapping with business owners
- Content mapping matrix
- Target IA recommendations
- Approved content mapping package

Security, Compliance & Risk Review

Evaluate risks and compliance considerations before migration

- Review sensitivity labels and label policies
- Analyze DLP policies and potential migration conflicts
- Review retention labels and retention policies
- Identify high-risk content requiring special handling

- Validate permissions alignment between source and target
- Security & compliance risk report
- High-risk content summary
- Compliance readiness summary

Migration Planning

Build the migration strategy, sequencing, and execution plan

- Define migration waves and sequencing
- Identify required tools (Mover, ShareGate, Migration Manager, API)
- Define pre-migration cleanup tasks
- Define cutover strategy and communication plan
- Identify dependencies and required roles
- Migration roadmap
- Pre-migration checklist
- Migration plan summary

Handoff & Documentation

Deliver final migration readiness package and transition ownership

- Compile final readiness report
- Provide recommendations for cleanup and preparation
- Upload documentation to client portal
- Close project in workflow engine
- Final readiness assessment report
- Migration roadmap package
- Cleanup and preparation guide

KEY FEATURES

- Fast assessment
- Vendor-neutral
- Clear risk visibility
- Actionable plan

INVESTMENT

\$3,500 - \$5,000 USD

Typical engagement: 1 week

Price may vary based on complexity, scope, and organizational size.

Expedited delivery available upon request.

WHY THIS SERVICE MATTERS

Organizations planning a migration needing clarity before committing.
