June 23, 2026

## OVERVIEW

---

A balanced fractional architecture engagement providing weekly architectural leadership, governance program management, and hands-on support for organizations actively maturing their Microsoft 365 environment.

## WHAT'S INCLUDED

---

### Strategy & Roadmap

- Weekly architecture sessions
- Weekly architecture support
- Roadmap planning

### Governance & Security

- Governance program management
- Security & compliance monitoring
- Governance oversight

### Documentation & Reporting

- Monthly executive reporting

### Training & Enablement

- Power Platform guidance

### Additional Deliverables

- Power Platform oversight
- Vendor/Microsoft liaison
- Escalation support

## ENGAGEMENT PHASES

---

### Monthly Discovery & Prioritization

Review business needs, align on priorities, and plan architectural focus areas for the month

- Conduct monthly alignment call with stakeholders
- Review new business requirements or initiatives
- Identify architectural risks, blockers, and dependencies
- Prioritize tasks and design work for the month
- Monthly priorities summary
- Risk and dependency notes
- Monthly alignment package

### Architecture Review & Design Support

Provide architectural oversight, validate designs, and support solution planning

- Review proposed solution designs or configurations
- Provide architectural recommendations and alternatives
- Draft or refine architecture diagrams
- Review governance, security, and compliance impacts
- Architecture review notes
- Updated architecture diagrams
- Architecture review package

### Governance & Lifecycle Refinement

Enhance governance frameworks, lifecycle processes, and operational standards

- Review and refine Teams and SharePoint governance policies
- Define or update lifecycle processes for sites, teams, and content
- Review permission models and access governance
- Recommend improvements to operational governance
- Governance updates
- Lifecycle process documentation
- Governance refinement package

### Solution Design & Light Implementation Support

Provide hands-on design assistance and limited implementation support within the 25-hour scope

- Design solution components for Teams, SharePoint, Entra ID, or Exchange
- Review or create workflow and automation designs

- Assist with configuration or implementation tasks (within hours)
- Validate alignment with Microsoft best practices
- Solution design notes
- Configuration recommendations
- Solution design package

### Security & Compliance Advisory

Provide deeper advisory support for security posture and compliance alignment

- Review Conditional Access, identity governance, or MFA changes
- Review sensitivity labels, DLP, and retention policies
- Identify emerging risks or misconfigurations
- Provide recommendations for incremental improvements
- Security advisory notes
- Compliance alignment summary
- Security & compliance advisory package

### Roadmap Guidance & Planning

Support roadmap development and provide strategic guidance for upcoming initiatives

- Review long-term roadmap and upcoming projects
- Identify opportunities for modernization or automation
- Recommend sequencing and prioritization
- Align roadmap with licensing, budget, and business goals
- Roadmap update notes
- Strategic recommendations
- Roadmap guidance package

### Monthly Summary & Handoff

Summarize completed work, decisions, and next steps for the upcoming month

- Compile monthly summary of completed tasks
- Document architectural decisions and rationale
- Provide recommendations for next month's focus
- Close monthly cycle in workflow engine
- Monthly summary report
- Decision log
- Next-month recommendations

### KEY FEATURES

---

- High-touch engagement
- Strategic + tactical support
- Ideal for growing teams
- Strong ROI

### INVESTMENT

---

**\$6,000 USD**

Typical engagement: Ongoing

Price may vary based on complexity, scope, and organizational size.

Expedited delivery available upon request.

### WHY THIS SERVICE MATTERS

---

Mid-market organizations actively modernizing their M365 environment, planning a Copilot deployment, or managing ongoing governance debt -- teams that need consistent senior architecture input every month, not just for a one-off project.

### ABOUT THE CONSULTANT

---

Shane McCaw -- Lead Microsoft 365 Architect with 30 years of experience designing, securing, and governing enterprise Microsoft 365 environments.
