ENGAGEMENT PHASES

Strategic Alignment & Leadership

Establish architectural direction, align with leadership, and define enterprise priorities

- Lead monthly executive alignment meeting
- Review organizational goals and upcoming initiatives
- Identify enterprise risks, blockers, and cross-team dependencies
- Define architectural priorities for the month
- Executive alignment summary
- Enterprise risk and dependency notes
- Strategic alignment package

Enterprise Architecture Ownership

Provide deep architectural leadership across M365, security, governance, and modernization

- Own and maintain the enterprise M365 architecture blueprint
- Review and approve solution designs across teams
- Create reference architectures and technical standards
- Lead architectural decision-making and governance boards
- Ensure alignment with Microsoft best practices and roadmap
- Updated enterprise architecture blueprint
- Architecture decision records (ADR)
- Enterprise architecture package

Governance & Compliance Leadership

Own governance frameworks, lifecycle processes, and compliance alignment

- Lead governance framework updates and enforcement
- Define and refine lifecycle policies for Teams, SharePoint, and M365
- Review and approve permission models and access governance
- Ensure compliance alignment across retention, DLP, and labeling
- Coordinate with security and compliance teams
- Governance framework updates
- Compliance alignment summary
- Governance leadership package

Solution Design & Deep Architecture

Provide hands-on architectural design for major initiatives and complex solutions

- Design complex M365 solutions (Teams, SharePoint, Entra ID, Exchange)
- Architect integrations, automation, and workflow solutions
- Review vendor or partner solution designs
- Create detailed architecture diagrams and documentation
- Provide hands-on configuration or implementation support (within hours)
- Solution architecture diagrams
- Integration and workflow design documents
- Solution design package

Security & Risk Management

Lead security posture improvements and risk mitigation across the tenant

- Review and refine Conditional Access strategy
- Lead identity governance improvements
- Review and optimize sensitivity labels, DLP, and retention
- Identify and mitigate enterprise security risks
- Coordinate with security teams on incident response and prevention
- Security posture improvement report
- Risk mitigation recommendations
- Security leadership package

Roadmap Ownership & Modernization Strategy

Own the M365 roadmap and drive modernization initiatives across the organization

- Maintain and evolve the enterprise M365 roadmap
- Identify modernization opportunities across workloads
- Define sequencing and prioritization for major initiatives
- Align roadmap with licensing, budget, and business strategy
- Lead Copilot adoption and readiness strategy
- Updated enterprise roadmap
- Modernization recommendations
- Roadmap ownership package

Monthly Summary & Executive Reporting

Summarize architectural work, decisions, and strategic outcomes

- Compile monthly enterprise architecture report
- Document architectural decisions and rationale
- Provide executive-level insights and recommendations
- Close monthly cycle in workflow engine
- Monthly executive report
- Architecture decision log
- Next-month strategic recommendations

KEY FEATURES

- Highest availability
- Deep architectural ownership
- Ideal for complex environments
- Priority response

INVESTMENT

\$11,000 USD

Typical engagement: Ongoing

Price may vary based on complexity, scope, and organizational size.

Expedited delivery available upon request.

WHY THIS SERVICE MATTERS

Organizations in regulated industries, government contractors, or enterprises requiring a dedicated senior M365 architect embedded in weekly operations -- where architecture decisions carry compliance, security, or mission-critical risk.
