- Full configuration review
- IAM & licensing analysis
- Security & compliance review
- Full tenant analysis
- Licensing optimization review

Governance & Security

- Governance maturity scoring

Strategy & Roadmap

- Prioritized remediation roadmap
- Remediation roadmap

Additional Deliverables

- 60-minute executive briefing
- Executive briefing

ENGAGEMENT PHASES

Discovery & Kickoff Call

Initial alignment, access validation, and scope confirmation

- Review intake form and customer notes
- Validate tenant size, licensing, and compliance requirements
- Confirm scope across Teams, SharePoint, OneDrive, Exchange, Entra ID, Security, and Copilot readiness
- Identify known issues or urgent risks
- Gather admin contacts and confirm access requirements
- Document customer goals and success criteria
- Kickoff summary
- Access checklist
- Confirmed scope & priorities

Environment Assessment

Deep technical review of identity, security, collaboration, and compliance configuration

- Export tenant configuration baseline
- Review Microsoft 365 admin center health
- Validate licensing distribution
- Review Conditional Access policies
- Check MFA enforcement
- Analyze sign-in logs for anomalies
- Review role assignments & privileged access
- Validate guest access configuration
- Export SharePoint site inventory
- Identify orphaned or abandoned sites
- Review sharing settings and external access
- Analyze storage usage and quota issues
- Validate site templates and hub structure
- Review Teams inventory and lifecycle settings
- Identify unused or abandoned teams
- Review meeting and messaging policies
- Review mailbox configurations and transport rules
- Validate anti-spam and anti-malware policies
- Review retention policies across workloads
- Review DLP policies and sensitivity label configuration
- Validate retention labels and auto-labeling

- Check audit log configuration
- Review insider risk settings
- Capture Secure Score baseline
- Analyze permission inheritance issues
- Identify overshared content and high-risk sites
- Validate sensitivity label coverage for Copilot
- Validate search index health
- Raw exports and logs
- Secure Score snapshot
- Permissions exposure snapshot
- Site & Teams inventory

Findings & Gap Analysis

Risk scoring and mapping issues to Microsoft best practices

- Map findings to Microsoft best practices
- Identify high-risk issues
- Identify medium-risk issues
- Identify low-risk issues
- Score each category (Identity, Security, Compliance, Teams, SharePoint, Exchange, Copilot)
- Prioritize gaps based on impact and effort
- Findings matrix
- Risk scoring table
- Gap analysis summary

Recommendations Review

Build a prioritized remediation roadmap

- Build prioritized remediation plan
- Map recommendations to impact, effort, dependencies, and required roles
- Identify quick wins vs long-term fixes
- Validate recommendations against customer goals
- Prepare customer-friendly explanations
- Remediation roadmap
- Quick-wins list

Implementation & Delivery

Apply approved changes and update configuration baselines

- Configure Conditional Access updates
- Update MFA enforcement
- Fix permission inheritance issues
- Apply sensitivity labels
- Update DLP policies
- Clean up Teams sprawl
- Archive unused sites
- Update retention policies
- Implement lifecycle governance
- Apply Copilot safety controls
- Update configuration baseline and document changes
- Change log
- Updated configuration baseline

Handoff & Documentation

Finalize reporting and transition ownership back to the customer

- Compile final audit report
- Export all findings, recommendations, and remediation steps
- Provide updated governance guidance
- Provide updated security baseline
- Upload documentation to client portal
- Close project in workflow engine
- Final audit report
- Governance guide
- Security baseline

KEY FEATURES

- NASA-grade assessment
- Fast turnaround
- Clear prioritization
- Compliance-focused

INVESTMENT

\$4,500 - \$7,500 USD

Typical engagement: 2 weeks

Price may vary based on complexity, scope, and organizational size.

Expedited delivery available upon request.

WHY THIS SERVICE MATTERS

Mid-market organizations (200-1,500 employees) with organic M365 growth.
